Estate Helpers®

David Salita
Consultant

Do you have . . .

- Assistance with personal papers?
- Assistance with personal property?

ESTATE HELPERS® GOALS

Estate helpers® has been created to help those people who are unprepared and unsure of what needs to be done in case of the unexpected.

A little backgrounder

Everyone has suffered a loss of a close relative or friend. Since events like these can happen at any age, ideally we should be prepared. Estate Helpers® has been created with this in mind.

David Salita, the creator of Estate Helpers®, has had the unfortunate experience in dealing with the loss of close family and friends. From these events, he learned the importance of keeping track of key documents, and letting others be aware of essential information.

We will help you to put together information you will need in order to put your mind, and estate, at ease.

David Salita will go to meet with you. He has licensed antique dealers who will appraise your property. He has names of hardworking real estate agents and lawyers who can give you the time and assistance at reasonable costs. He also has names of Rabbis and Ministers who can help you with your religious wishes.

What Estate Helpers® is designed to do is to assist in putting together all essential information required in the event of either yourself or someone close to you becoming ill.
